VI. Acceptance

1. ISU's Office of Academic Affairs will conduct a preliminary examination after receiving admission applications, and applicants who have passed the preliminary examination will advance to a second review. Applicants may be notified of taking a test on professional subjects or language proficiency, if necessary. Successful applicants will be notified of enrollment after the application results have been approved by ISU's Committee of Admission for International Students.
2. If an applicant has applied to two or more departments and programs and passed the review, he/she should go to <https://enroll.isu.edu.tw/DI/> to select the department and program he/she decides to enroll in.

VII. Notification of Application Results

1. A formal notification will be sent to all applicants individually.
2. **Under no circumstances will the acceptance letter guarantee the issuance of a visa, which should be approved and issued only by the local R.O.C. diplomatic mission.**

VIII. Enrollment

1. If any information or documents provided by an applicant or included in the application packet are found to be counterfeited, actually owned by another person, or tampered with, the applicant should be denied admission. If such an applicant has enrolled at ISU, his/her student status should be canceled and no certificate issued. If he/she has graduated from ISU, the degree awarded will be revoked and the diploma rescinded.
2. A complete enrollment packet will be sent to successful applicants together with a formal notification. They should follow the instructions to pay the tuition and other required fees and to complete the necessary enrollment process. Failure to complete the enrollment process will result in refusal to enroll at ISU. Upon enrollment, they should submit the passport, a photocopy of the graduation certificate (or diploma) verified by the local R.O.C. diplomatic mission as a true copy of the original, and an official academic transcript. Failure to submit any of the above will result in refusal to enroll at ISU.
3. When applying for a visa, successful applicants should submit a health certificate (including HIV test, positive measles & rubella antibodies, or certification of prophylactic vaccination; please only use the form provided by ISU) issued by a qualified hospital to the local R.O.C. diplomatic mission. Moreover, they should, upon enrollment, submit one copy of the health certificate to ISU's Health Section and take a group physical exam for freshmen as arranged by ISU. Please visit the website of the local R.O.C. diplomatic mission to see whether there is any specific form required for visa application.
4. Upon enrollment, new international students should submit proof of health and personal injury insurance, valid for at least six months starting the date of arrival in Taiwan; the said insurance should be valid in Taiwan (the proof should be verified by the local R.O.C. diplomatic mission). Those who have not purchased any insurance may pay insurance premiums and request ISU to get insurance on their behalf (only available for officially enrolled international students).
5. Rules regarding part-time jobs:
 - (1) Officially enrolled international students may apply for a work permit after obtaining the Alien Residence Certificate and the consent from ISU. Those who work without a valid work permit will be fined NT\$30,000 ~ 150,000.

When international students are looking for a part-time job, safety should always be given top priority.

- (2) International students can apply to the Office of International and Cross-strait Affairs. A work permit issued by the Workforce Development Agency, Ministry of Labor, is valid for one year at most, and those with a valid work permit should not work more than 20 hours per week, except for summer and winter vacations.
 - (3) In case of any further questions or concerns, please contact the Office of International and Cross-strait Affairs for more information.
6. Matters not mentioned herein, if any, should be subject to the MOE Regulations Regarding International Students Undertaking Studies in Taiwan, the MOE Regulations Governing the Assessment and Recognition of Foreign Academic Records by Institutions of Higher Education, the MOE Regulations Regarding the Assessment and Recognition of Academic Credentials for Mainland Area, the MOE Regulations Governing the Examination and Recognition of Educational Qualifications from Hong Kong and Macao, the Regulations for International Student Admissions at I-Shou University, and the resolutions adopted by ISU's Committee of Admission for International Students.

For more information please visit: <https://english.moe.gov.tw/> → Study in Taiwan → Scholarships → Taiwan Scholarship Program.

2. ISU Scholarship for International Students:

Scholarship types and amounts are as follows:

- (1) The maximum scholarship amount for new international students is the sum of the tuition and other required fees of the first academic year and a subsidy of NT\$20,000 for accommodation at one of the ISU-owned dormitories. The scholarship amount will be equally divided by two and awarded in two separate semesters after being approved by the Scholarship Committee for International Students.
- (2) For continuing international students (excluding those granted the scholarship for new international students), the maximum scholarship amount is equal to the tuition and other required fees for one semester. The scholarship amount will be awarded after being approved by the Scholarship Committee for International Students.
- (3) International students may do service-learning under the supervision of the Office of International and Cross-strait Affairs, and the Office will evaluate their performance on service-learning, and the evaluation results will be one of the deciding factors for the Scholarship Committee for International Students to consider applications for (continuing to receive) the scholarship.
- (4) Scholarship recipients should report to the Office of International and Cross-strait Affairs on the first day of school. The Office will deduct the tuition, other required fees, and accommodation fees from the scholarship amount, and then return the balance to the recipients, if any. If the scholarship amount, however, is less than the total fees payable, the recipients have to pay for the difference.
- (5) If a new international student who is also a scholarship recipient will not live on campus during the first year of study for special reasons, he/she should not request ISU to give him/her the scholarship amount used to offset accommodation fees as mentioned above.
- (6) A successful scholarship applicant will not receive the scholarship if he/she does not complete the enrollment process for the semester when the scholarship is awarded, if he/she applies for deferral of admission, or if he/she transfers to another school. A scholarship recipient will be asked to return the full amount of the scholarship awarded in the current semester and disqualified from subsequent scholarships if he/she suspends studies or withdraws from ISU while ISU is in session, if his/her attendance rate is below 70% for the first nine weeks of the current semester due to reasons other than force majeure, or if he/she has a record of minor demerits or even severer punishment; to maintain his/her status as a student of ISU, such a student shall pay up the tuition, other required fees, and/or accommodation fees previously offset by the scholarship. A scholarship recipient

will be ineligible to receive the approved scholarship if he/she resumes studies or has failed to receive a personal conduct score of 85 or higher in the previous semester.

- (7) The Scholarship Committee for International Students will review scholarship applications. Qualified applicants will be granted the scholarship for the first year of studying at ISU, and they have to file another application in the second year of studying here. For more information, please refer to the Regulations for International Student Scholarship at I-Shou University at: <https://www.isu.edu.tw/international>.
